**FUNDING SOURCE:** 100% Federal Funds

**PURCHASE JUSTIFICATION:**

**Description of Product Service Requested:** The Federal Motor Carrier Safety Administration (FMCSA) sponsored and coordinated Commercial Vehicle Information Systems and Networks (CVISN) programs in many states to create a way for existing and newly designed system to exchange commercial vehicle information through the use of standards and available communications infrastructure. This contract is to create a fully integrated motor carrier information system, which supports safe and seamless commercial vehicle transportation through North America. This system will provide high quality, timely, and easily accessible information to all authorized users. The Michigan CVISN program will provide a framework or "architecture" that will enable government agencies, the motor carrier industry, and other parties engaged in Commercial Vehicle Operations (CVO) safety and regulation, to exchange information and conduct business transactions electronically.

**Purpose/Business Case of New Contract, Amendment, or Extension and Expected Outcomes:** This increase is needed in order to successfully implement CVISN Level 1. This federal initiative is nearing completion and due to changes in the requirements of this system, additional funding is needed.

**Commitment:** Fixed prices subject to appropriations.

**Risk Assessment:** If this increase does not take place, the Michigan State Police will not be able to implement CVISN Level 1 and could face losing federal funding for this project.

**Cost Reduction Consideration:**

**A. Negotiated Savings:**

**B. Cost Avoidance:** Cost will be held to FY04 prices.

**C. Total Savings:**

**PRICE CLAUSE:** Prices to remain firm for the duration of the contract.
